

Help us spread the word about electricity concessions

Did you know there are a range of Queensland Government rebates and concessions available to support households to manage their electricity costs?

We are asking for your help to let your stakeholders and clients know that if they hold a valid concession card (including a health care card) they could be eligible for up to \$340 per year off their electricity bill.

If you could email or share the messages below in your newsletters or social media, this will help to raise awareness of assistance available to households.

Editorial or email content: *Do you, or does someone you know, have a valid concession card which could give you access to a \$340 electricity rebate? Phone your electricity retailer to see if you are eligible.*

Assistance is also available if you are finding it difficult to pay your energy bills. To check what assistance you may be able to access, contact your energy retailer.
